- Ensuring effective project management
- Applying creative and strategic thinking
- Preserving the environment
- Maintaining high occupational health and safety standards
- Pursuing profitable growth
- Putting quality at the core of everything we do

OUR MISSION

At Sahan Drilling Co., we strive to excel in a dynamic and competitive business environment by drilling with the most advanced technologies and maintaining the highest service standards. We seek innovative solutions and never compromise on quality. Our goal is to be the best in our industry.

ABOUT SAHAN DRILLING AND CONSTRUCTION COMPANY

SAHAN DRILLING AND CONSTRUCTION COMPANY, was founded in 2010.

It is a leading provider of high-quality services in well drilling, dam and berked construction, water supply and distribution systems, and electrical system installation using solar and hybrid technologies.

The company has a team of experienced and qualified experts, including senior master drillers, middle-aged drillers, and young professionals.

Sahan Drilling has successfully delivered over 61 new boreholes and more than 82 rehabilitated boreholes across the country.

With modern drilling equipment (rigs reaching up to 600 meters deep), and a strong management system, Sahan Drilling stands as one of the leading water drilling companies in the region.

OUR SERVICES

- Geophysical study for ground layers data
- Borehole drilling in various sizes
